

FORENAP PHARMA

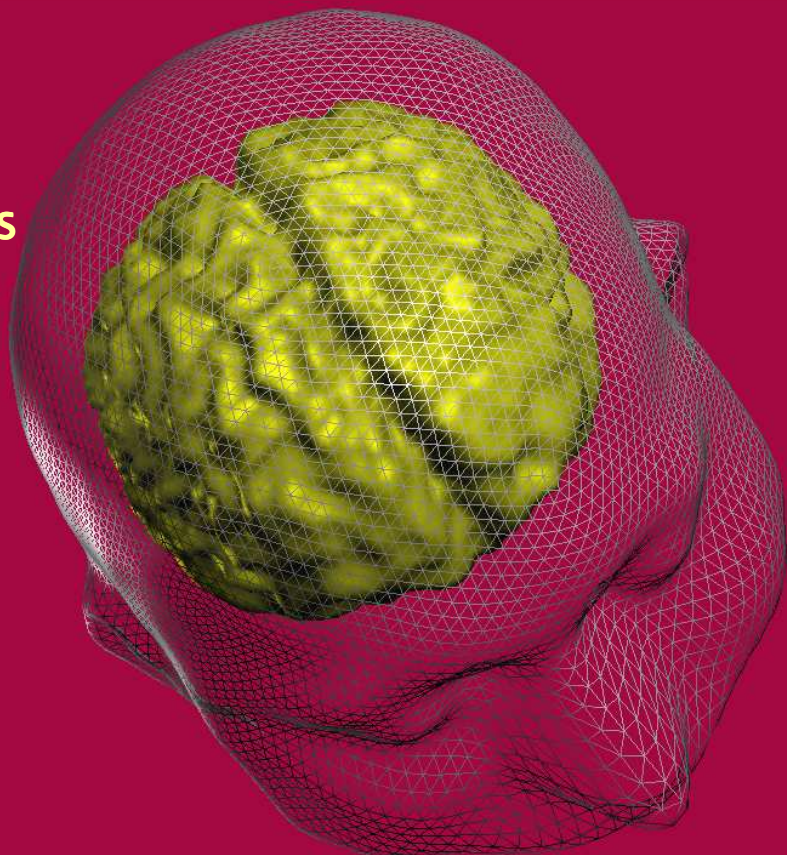

At the Forefront of Drug Development and Research in Neurosciences

Forenap Pharma is an International Contract Research Organization (CRO) specialized in early Drug Development and Research in Neurosciences.

Our services are focused on Preclinical phases, Phase I in all therapeutic areas and Phase IIa for Central Nervous System and Cardiovascular compounds.

First in Man, Pharmacokinetic, Bridging, Interaction, Pharmacodynamic, Proof of Concept and Human model studies are performed in our 72 highly monitored bed equipped centre, which is specifically dedicated to CRO activities.

Forenap Pharma's structure and network enable it to carry out a "full service package" and offer consultancy services from Drug Discovery to Marketing Authorization.

Choosing the exclusive in-house technology and expertise of Forenap Pharma is the most efficient strategy to improve your drug development.

PRECLINICAL AND CLINICAL SERVICES

Project Management
Medical and Regulatory Affairs
Product Safety
Clinical Monitoring
Data Management/Biostatistics
Medical Writing
Quality Assurance
